

## Sensory-Friendly Santa 2016

Ho Ho Ho! Autism Speaks is thrilled to be partnering with the [Noerr Programs Corporation](#) again this year on their Sensory-Friendly Santa programs! [Caring Santa](#) (a partnership with SIMON Malls), [Santa Cares](#) and [Sensitive Santa](#) (a partnership with Washington Prime Group Malls) all provide families that have children with autism and other special needs with the opportunity to connect with Santa in a special way this holiday season! The events provide a more controlled and welcoming environment to visit Noerr's Santa Photo Experience.

On Sundays, November 20 and December 4, for two hours prior to the mall opening, over 180 malls across the country will be offering a sensory-friendly Santa experience! Register today to schedule an appointment with Santa at this private event just for families with special needs!

### **On Sunday November 20<sup>th</sup>:**
