

Laredo CDC Family Reading Program

Aurora Public Schols

2016 – 2017

Parent Reading Resources:

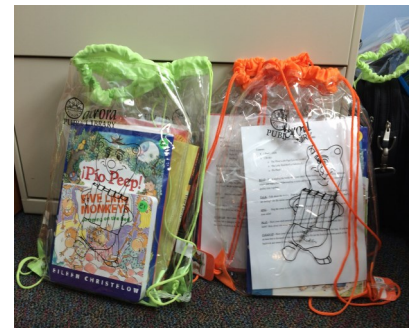

To support our families with reading at home, we want to remind you that we have books available for check-out in our library located in the Parent Resource Room C-36.

Classroom books will also be available if you come into the classroom to read to students during choice time. Please call ahead of time to schedule your parent reader time with the classroom teacher. Books read with your student during Parent Days also count!

This school year, Laredo CDC will continue its partnership with Aurora Public Library and the Backpack Reading Program will return this fall. The lending backpacks will be used to rotate from student to student in the classroom. The students will be able to take home the backpacks to ensure that preschoolers are reading or being read to at home. Every week, the student will return the backpack with all of its contents to the teacher so that a new one can be issued. If a backpack is not returned, then the student will not be able to receive another backpack until it is returned. We are asking parents and care givers to help us maintain the backpacks and books in great shape to extend the life of the program. Please help your student (s) take good care of the books by reading together with them to ensure that books are not being torn, written in or damaged. We appreciate your support and partnership.

Our school will also continue with a reading caterpillar that will extend from one end of the building to the other. The caterpillar's body parts will be represented by a circle that the student gets to decorate for EVERY 10 books read by or to them. Every time a student reads or is read a total of 10 books, the caterpillar will gain a new body piece.

Please use the attached reading chart to track the books you or family members are reading with your preschool child. Return the form to the classroom teacher with your signature when you have 10 books read.
